Dear Clerk:

On behalf of Friend of the Court Association and Macomb County, I wish to add the following comments to this proposed court rule:

On general principals we feel standardization is good, however we think the rule should be clarified how the standard form could be insterted into the judgment. If a separate filing we would like to see all issues impacted that deal with the child/ren, i.e. custody, parenting time.

The advent of stardardization will assist in many facets and Friend of the Court Association does support this effort.

Thank you

Lynn
